Os painéis traseiros (costas) fixam a estrutura. Assegure-se de que a estrutura tenha ângulos retos (90°), antes de pregar os painéis. Pelo contrário o móvel não ficará firme.

**ENGLISH:** The BACK Panels are responsible for holding the frame. This is the reason the structure must be assembled at right angles (90°) BEFORE nailing the back panel in place.

**ESPAÑOL:** Los paneles traseros fijan la estructura. Asegúrate de que la estructura tenga ángulos rectos (90 grados) ANTES de colocar los clavos del panel. De lo contrario el mueble quedará inclinado.

**FRANÇAISE:** C'est le dos qui maintient la structure. Il est donc important que la structure soit d'aplomb (angles à 90 degrés) avant de commencer à clouer le dos. Dans le cas contraire, le meuble ne sera pas stable.
